

## Attended Seminar – Didn't Schedule for Evaluation Emails

### Week 13

**SUBJECT:** Chocolate, Vanilla, Orange Crème, Strawberry, Oh My!

**EMAIL:** Hi (Name),

Did you know that if you aren't getting enough nutrients your weight loss is being inhibited?

Very few people out there are getting the nutrients they need to lose weight properly. Are you?

Try some of Solutions4 Multivitamin/Multimineral to receive assistance finding your missing nutrients.

The difference between this supplement and others is the chelation (key-lay-shun) process by which mineral substances are changed into digestible form.

Many people that take a multivitamin daily rarely absorb all of the nutrients from it, which is fixed during the chelation process so that you can get all the nutrients possible.

More nutrients can be added to your diet as well through Solutions4 Nutritional Shakes.

They come in four delicious flavors; chocolate, vanilla, strawberry, and orange crème and have a perfectly balanced source of whey protein, making the perfect "on-the-go" snack.

The best part? Kids love it too!

Prices and availability vary between clinic locations, so be sure to contact the clinic nearest you to purchase Solutions4 skin care products and supplementation.

We are still extending our Seminar Special, which gives you a One-on-One Weight Loss Evaluation for only (Office Price)!

A Personalized Weight Loss Evaluation typically costs (Price of Weight Loss Evaluation) so this is a discount of (Price of Coupon Discount).

Call (Office Phone Number) to schedule your Evaluation!
