

Attended Seminar – Didn't Schedule for Evaluation Emails

Week 15

SUBJECT: Get Rid of Cellulite With these 4 Simple Tools!

EMAIL: Hi (Name),

Sick of the jiggly, jello-like blob hanging around your stomach and thighs?

Have you tried everything you can think of only to be disappointed with another diet that doesn't work?

Guess what? Cellulite is not the result of a fat body- it is the result of a toxic body.

Toxins become trapped in the connective tissues of the skin, causing a dimpling effect known as cellulite.

Getting the right weapons to get rid of your cellulite is important and the first weapon to have in your arsenal is Solutions4 Cellulite Cleanse.

Cellulite Cleanse helps support the body's natural cleansing systems by eliminating these toxins from the body.

The next two weapons are like a bow and arrow, best used together: Solutions4 Heat: Exercise Gel, as well as their Maintain: Anti-Cellulite Lotion.

The Heat is on! Exercise Gel works to increase circulation to the area it is applied while firming and toning the skin to induce calorie burn.

Anti-Cellulite lotion however, works best when used after a contouring and detoxifying body wrap by conditioning and toning the skin, while maximizing cleansing and cellulite removal.

Get the maximum results possible for cellulite cleansing with the contour cream, used during the body wrap. This wrap was formulated as a method of detoxification and differs greatly from other dehydrating body wraps.

Prices and availability vary between clinic locations, so be sure to contact the clinic nearest you to purchase Solutions4 skin care products and supplementation.

We are still extending our Seminar Special, which gives you a One-on-One Weight Loss Evaluation for only (Office Price)!

A Personalized Weight Loss Evaluation typically costs (Price of Weight Loss Evaluation) so this is a discount of (Price of Coupon Discount).
