

Canceled or No Show Seminar Weekly Follow Up Emails

Week 7

SUBJECT: Get Your Own Healthy Glow!

EMAIL: Hi (Name),

Did you know that your skin is your body's largest absorbing and eliminating organ?

That's right! Each morning when you lather on that body wash and follow with lotion, every toxin and preservative is absorbed through your skin, into your bloodstream.

This means you should check what is going on your body as well as what is going into it!

Since this isn't a well known idea, it can be difficult to find natural skin care.

It's a miracle! Solutions4 has created a skin care line with healthy ingredients in mind.

Through an easy, four step process, your skin will become visibly softer, toned and glowing.

The first step is "Wash: Herbal Cleanser".

This cleanser is so wholesome and gentle it can be used on the entire body or even as toothpaste.

It is created from natural astringents, cleansers, and food grade preservatives and is PH balanced so it will not leave residue or dry skin.

The second step is "Scrub: Facial Exfoliator".

This scrub is created from all natural cleansers and gentle polypropylene beads.

Not only does it exfoliate, but additionally it moisturizes, refines, and soothes irritated skin.

The third step is "Tone: Skin Spray"

This skin spray is designed to refresh the skin after Wash or Scrub, and can be used as needed throughout the day to moisturize the skin in conjunction with step four "Renew: Ester-C Serum".

Renew is designed to be an all natural and extremely effective moisturizer which stimulates the formation of collagen and elastin and prompts cell renewal. It reduces the appearance of fine lines and wrinkles, and improves the texture of skin and serves as a UV skin protectant.

Prices and availability varies between clinic locations, so be sure to contact the clinic nearest you to purchase any of Solutions4 skin care products and supplementation.
