

“Finally Get Help with Numbness and Pain in Your Feet!”

Advanced Treatment is Now Available to You if You are Suffering from the Debilitating Effects of Neuropathy Symptoms!

Here’s what some patients have said about their treatments:

“I was on 14 medications and my doctors had told me I may need to have my foot amputated. I hadn’t been able to wear shoes other than sandals for years because of my swollen and painful feet. After going through this program I’ve lost weight and my foot pain is gone. I can now wear normal shoes.” Patient, N.S., Age 58

“I drove 120 miles to get this treatment because I had not been able to feel my feet for 15 years. I work on a farm and I would stumble and fall because I could not feel the ground under my feet. I’m getting older and I can’t afford to fall and break something. After the treatments, I was able to feel my feet and toes again. Now for the first time in over a decade I have feelings in my feet. “ Patient M.H., Age 85

“Doc, I can’t live with this excruciating foot and leg pain and numbness!”

When you hear this from a patient it gets your attention. Typically, I get the worst of the worst pain patients but when I recently heard this exclamation, my attention was particularly peaked. Let’s call this patient Bob. Bob is 62 years old with neuropathy in his hands and feet. He had Type II Diabetes and his life was literally as he described it “a living hell.” Clearly he was coming to the end of his rope. The nerves in his legs and feet were damaged. He was in HORRIBLE CONSTANT PAIN!

“I Can’t Sleep at Night!”

He complained to me, “I can’t sleep at night because my legs feel like they are being eaten by little bugs or chewed on by small animals.” During the day, he could hardly walk and every step sent shooting pain like lightning from his toes and up his legs up almost to his knees. He had numbness in his feet and couldn’t feel his feet very well and had terrible balance problems. He was worried he might fall and injure himself.

“I Had to Help This Man!”

I recently was fortunate enough to accidentally discover a new non-invasive and non-drug treatment for severe and constant foot numbness and pain caused by neuropathy. I have been treating Neuropathy for years with great success but stumbled onto this new treatment in 2011 that is used to treat patients who are fearful of losing their legs.

My staff and I witnessed some amazing reductions and eliminations of some of the worst pain and numbness syndromes I had ever seen... And it was FAST! After just a few minutes of treatment on patients with extreme and chronic pain and numbness of the worst kind, we had patients telling us how their pain levels and numbness had decreased and they were shocked. Some of them had their pain and numbness alleviated after only one treatment.

Do you suffer from any of the following...

- Numbness of your feet and legs?
- Painful tingling feet?
- Night-time discomfort?
- Pin-like sensations with each step?

Have you ever been told...

- You have Neuropathy?
- You must live with the pain, because nothing can be done?

If you answered YES to any of these questions, you’re in LUCK!

We were able to reduce or even eliminate NEUROPATHY PAIN and/or NUMBNESS of the worst kind! Using the latest and most recent technologies, I now offer a non-invasive, non surgical and painless neuropathy pain treatment. I help patients reduce or even eliminate their neuropathy pain and/or numbness using nutritional therapies, deep tissue super-pulsed cold laser treatments, combined with specific non-surgical, non-invasive, relaxing re-integration and stimulation treatments of peripheral nerves using whole body vibration to increase their function quickly. So just how can you see if Dr. Singleton’s Neuropathy Pain Relief treatment will help you to reduce or eliminate your foot or leg pain and/or numbness?

We have a very limited number of Free Evaluation times left, so call before they are gone!

If you’ve tried treatment for your knee pain that didn’t work, it could be because only 20% of knee problems are simply structural. In 80% of the cases, there is more going on with your knee pain than structural problems. There are most likely underlying issues that need to be resolved!

If You are Looking for Relief from Your Knee Pain and for a Superior Level of Treatment that Gets to the Cause and Fixes the Problem... There are Options that You Probably Do Not Know About!

For years, only professional athletes have had access to these state-of-the-art treatment therapies that allow them to heal more quickly and more completely. Finally... These Breakthrough Treatments are Available to Anyone Who Wants Them!

Some people have referred to this treatment protocol as “magic”... but this is all based on science, and done in a very comprehensive manner, which includes multiple therapies.

One of the therapies in the breakthrough treatment protocol is a LASER which has been shown to accelerate pain relief and tissue healing in numerous studies and has been cleared by the FDA for use in clinical practices.

This particular laser therapy works by stimulating internal healing on the cellular level. During treatment, light penetrates six to eight inches below the skin’s surface. Energy from the laser promotes the production of cellular ATP (Adenosine Tri-phosphate). Think of ATP as a fuel that cells need to heal. Laser therapy brings this fuel source straight to the cells! Combining this breakthrough laser technology with other state-of-the art therapies, can knock out knee pain once and for all!

If you are looking for a solution that...
