

# YES!

## You Can Eliminate **Back Pain** Once and For All — At a Price You CAN Afford!

*If you suffer from chronic lower back or neck pain, you've probably been told that you only have three basic options:*

- #1) Take prescription medications to try to mask the pain.
- #2) Have epidural injections to temporarily ease the pain.
- #3) Resort to surgery.

**But you do have other options!**

There are **Non Surgical Options**, treatments that are gaining support in the medical community and helping thousands of back and neck pain sufferers get back to an active and pain-free life.

At **Lighthouse Pain Relief Clinic**, we have put together a comprehensive combination of the most innovative and breakthrough pain relieving treatments available for you!

**Until now, these treatments have been very expensive!**

**Clinics have historically charged \$4,000 to \$16,000 for this Care!**

**But That's Not What You'll Pay!**

**So Who is a Candidate for this Procedure?**

The literature on decompression says that it provides relief for:

- \***Degenerative Discs**
- \***Herniated Discs**
- \***General Lower Back Pain**
- \***Failed Back Surgery**
- \***Sciatica**
- \***Neck Pain**

A question you would probably like to ask me is if all of this treatment is so amazing and has helped so many people...

### **Why Have I Slashed My Prices?**

Well, I was one of the doctors that was charging more for this, and I'll tell you why. A lot of money is spent on research and development for these amazing breakthroughs in spinal decompression, laser treatments and all of the other treatments we offer. That makes the purchase price high on this amazing equipment I have had to purchase in order to offer this comprehensive pain relieving package...it's very expensive!

But recently, I paid the LAST lease payment on some of this equipment. So I am passing the savings onto you. Sure I may have to buy more equipment in the future, but until that happens, I am going to pass the savings right along to you! I'll save you the price-shopping phone call to my office.

First of all, this is NOT covered by insurance. The price for the entire treatment program isn't between \$4,000 and \$16,000. The price for your entire "Personalized Pain Relief Program" is only \$2997. Yes, that's right, that isn't a typo. After you have done your homework, you'll know this is an incredible price for state-of-the art equipment and personalized, pain relieving treatment and attention like you've never received before! And if that price wasn't great enough, we even have monthly payments and financing options available for you too!

**Yes, I believe at my office you'll get the best price and the best possible care available!  
I will personally see to it!**
