

# “Finally The SOLUTION for Agonizing Foot And Leg Pain!”

***Your City, State. If you’ve been told there’s nothing that can be done about your foot pain, read on...***

***If you suffer from:***

- **Burning Pain**
- **Leg Cramping**
- **Sharp Electrical-Like Pain**
- **Pain When You Walk**
- **Difficulty Sleeping from Leg and Foot Discomfort**
- **Prickling or Tingling of the Feet or Hands**

Then I’d like to personally invite you into my office for a FREE TREATMENT.

Now you might ask, **“Why would a doctor give away a FREE TREATMENT?”**

Well, allow me to explain.

In my office, I see patients who suffer from excruciating pain, throbbing, burning, stabbing and/or tingling in their feet and legs.

These patients have usually been told that there is nothing that can be done for them, or they have been given drug therapy, which hasn’t helped them.

Typically, these patients come to me very skeptical that I can even help them.

So to alleviate any undue stress, I tell them this, “Have a treatment or two on me, until you get some pain relief.”

You see, I want to show you, just like I have shown these other patients, that we offer real solutions in our office that will help you become pain-free and/or free of your numbness and tingling...and I want to demonstrate that to you without you having to worry if you will be wasting money.

How do I get such great results?

Well, first of all, I get to the bottom of the problem.

I will explain to you why you are having this problem in the first place and what you can do to help reverse this

degenerative nerve disease and eliminate your numbness, tingling and pain.

We also have breakthrough technologies that are helping patients daily become pain free and symptom free!

We have several therapy modalities to help reduce and reverse the numbness, tingling and burning.

**Many of our patients whose pain would get worse at nighttime, finally have their first restful night in years after just one treatment.**

Come in and discover the answers that we have for you.

Patients call this, “The wonder cure!”

Just recently, a patient came in who was scheduled for surgery because she had suffered with bone spur pain for 14 years.

However after just two weeks of treatment, she canceled her surgery because the pain was gone.

**Podiatrists have told our patients, “Whatever you are doing is working...keep doing it.”**

Our patient, J.S. age 75, recently said, “I walked an hour longer shopping with my wife than I have in years.” He typically could only walk for 20 minutes, but he walked almost 2 hours, and that was after just one treatment.

The procedure in our office is very relaxing...in fact some of our patients fall asleep during the treatment.

One female patient just reported that after two treatments, she was able to put on tennis shoes and go and exercise for the first time in two years.

**Here’s what other patients have said about the treatments:**

“I was on 14 medications and my doctors had told me I may need to have my foot amputated. I hadn’t been able to wear shoes other than sandals for years because of my swollen and painful feet. After going through this program I’ve lost weight and my foot pain is gone. I can now wear normal shoes.” Patient, N.S., Age 58

“I drove 120 miles to get this treatment because I had not been able to feel my feet for 15 years. I work on a farm and I would stumble and fall because I could not feel the ground under my feet. I’m getting older and I can’t afford to fall and break something. After the treatments, I was able to feel my feet and toes again. Now for the first time in over a decade I have feelings in my feet.” Patient M.H., Age 85

“I can FINALLY wear tennis shoes! I now walk 3-4 days per week, which I haven’t been able to do for four years! I feel wonderful and much better since I started my program. If you have neuropathy, come on in! What I’ve experienced so far has been phenomenal!” Patient G.D., Age 51

**Now it’s your turn to see if our Neuropathy Pain Relief Treatment will help you to reduce or eliminate your foot or leg pain, like it’s done for so many other patients!**

The process to get going is very easy. Simply call our office today and ask for your FREE Neuropathy Pain Relief treatment.

Our staff will get you in as soon as possible, so...
