Dear (Patients Name),

By way of introduction, I'm Dr. \_\_\_\_\_ and your friend, (Example: Jane Smith), mentioned you may be interested in learning about the exciting information I share with the people in our community.

Jane has benefitted from some of the many, many services we offer in our office and when we asked her if she knew of anyone else who might benefit from our services...she gave us your name.

Every day I see patients in my office that can't sleep, that feel exhausted, that have no energy and that can't lose weight. I see many patients that don't have to lose weight, but they suffer with fatigue, depression, low libido, fibromyalgia and/or back and neck pain.

Why are more and more people suffering with these problems every year?

Well there are a lot of reasons why and they are different for each person.

From all of the problems I just mentioned above, I'll just give you an example of problems with weight loss.

Most people who want to lose weight are trying very hard.

They exercise every day and try to eat, what they think, are the right foods.

Still, others have tried every fad diet.

There are those who just can't handle their food cravings.

Some of my patients get tired all day long.

Many patients can't sleep at night.

Did you know that if your body can't get a good night's sleep, you won't be able to lose weight?

What are *your* particular health concerns?

Have you ever wondered why you suffer with the particular symptoms you have?

Years ago, I had these same questions as I have tried to improve my own health and gain more energy in my life.

Fortunately, after years of researching and studying and working with these problems, I have some incredible information to share with you....that just doesn't get discussed.

Because the things I teach my patients generally don't get discussed elsewhere, I feel a responsibility to share the health successes I see on a daily basis.

That's really the reason I asked Jane if she knew anyone who might be interested in this information.

That's why I am contacting you...to spread the word!

I'm happy to say that I've discovered some amazing solutions....which have helped thousands of people finally regain their health, get their energy back and get on with the process of living!

There's a key to great health and energy but nobody's talking about it.

I'd like to invite you to a free seminar where I'll reveal the shocking connection between health, energy, hormone levels and rapid weight gain.

The breakthrough information revealed at this seminar will teach you how you can conquer your health or weight problems and have the energy you need once and for all by getting control of your hormones.
