**[(555) 555-5555]**

**Unfortunately, diabetes isn't just inconvenient.  
It can also cause serious complications with your feet,  
your kidneys, your cardiovascular system, and more.**

If you have diabetes, you know that it's important to keep your blood sugar within a certain range before and after eating.

However, there are several additional steps that you can take to improve your health and reduce your need for medication over time...

## **WE CAN HELP!**
