

APPLE STEM CELL MOISTURIZER

This product is changing the skin care industry in ways never before realized through the use of apple stem cells. By combining plant-derived stem cells with other anti-aging actives (such as anti-oxidants, anti-inflammatory botanicals and UV protectors), we can rejuvenate skin cell DNA, the core center for all cell renewal processes, and literally give aging skin a fresh new start.

This product is free from parabens, urea, sulfates, artificial colorants and perfumes. No toxic ingredients were used in the production of this product.

Helps To:

- Protect, prevent and repair aging skin
- Rejuvenate skin cell's DNA
- Replenish new collagen and elastin
- Decrease the appearance of wrinkles, particularly crow's feet

Suggested Use: Gently massage a small amount of Apple Stem Cell Moisturizer morning and night, into clean skin until invisible. Keep out of eyes.

Size Available: 1.75 fluid ounces

Shelf Life: 1 year

Ingredients:

MALUS DOMESTICA FRUIT CELL (APPLE) CULTURE EXTRACT - Protects longevity of skin stem cells.

BUTYROSPERMUM PARKII (SHEA) BUTTER - Wound-healing (anti-bacterial) properties; soothes sunburned skin and insect bites; improves the overall look of scars and stretch marks.

COCONUT ALKANES - Contains vitamins, A, D, E, K, and B; slows the aging process and provides hydration.

PANTHENOL - Vitamin B5; penetrating moisturizer, cellular proliferation, and tissue repair.

ALLANTOIN - Botanical Extract; healing and soothing properties from the Comfrey root.

ORGANIC ALOE BARBADENSIS LEAF - Anti-inflammatory, antibiotic, moisturizing, and soothing properties.
