ANTIOXIDANT

A growing body of scientific research indicates that astaxanthin has the ability to provide exceptionally powerful antioxidant protection to cells and has functional effects on muscle and nerve physiology. Comprehensive studies find astaxanthin to be ten times more effective than beta-carotene and many times more effective than vitamin E.

Solutions4 Antioxidant contains Astaxanthin which is a polyunsaturated free radical quencher and part of a series of compounds including beta-carotene included in the family of carotenoid antioxidants. These compounds add color to vegetables (red, orange, yellow) in which they occur naturally. This specific carotenoid also gives sea foods like salmon and shrimp their red coloration.

Astaxanthin nutrients are the most potent antioxidants in all of nature, and have been proven to work longer than other antioxidants in protecting against photosensitized oxidation. It has been shown that dietary astaxanthin exerts anti-tumor activity through the enhancement of immune response.

Helps To:

- Maintain health and prevent disease
- Protect from damage by free radicals

Concentrated Formula Contains:

Astaxanthin Extract

Vitamin C

Motherwort Herb

Angel Hair (Mozuku) Extract

Milk Thistle Herb

Green Tea 3% Extract

DHEA (Dehydroepiandrosterone)

DHEA, produced in the adrenal glands, is the single-most abundant steroid in the human bloodstream. It is often called the "mother" or precursor hormone, because the body readily converts it on demand into active hormones such as estrogen, testosterone, cortisone and progesterone. DHEA declines with age more rapidly in both men and women beginning at the age of 40. This decline triggers age-related issues and increased susceptibility to disease.

Note: One should not take DHEA unless they are over the age of 40, or have an auto-immune disorder.

Helps To:

- Build the adrenal glands
- Strengthen the immune system
- Slow natural changes that comes with age
- Provide more energy
- Increase healthy mood and memory
- Build-up muscle strength

EVENING PRIMROSE OIL

Solutions4 Evening Primrose Oil (EPO), comes from the seeds of the evening primrose plant. Once known chiefly for its beauty, few knew of its healing powers as an herb. This Omega 6 fatty acid is a rich source of gamma linolenic acid (GLA), an essential fatty acid (EFA) that the body converts to a hormone-like substance called prostaglandin E1 (PGE1). Prostaglandins positively affect every organ of the body, and are especially beneficial to the heart, skin, and immune system. A shortage of prostaglandins results in impaired health. With an increase of GLA in the diet, the body is better able to function and properly fight disease.

Helps To:

- Lower weight without dieting
- Improve acne when taken with zinc
- Lower blood cholesterol/blood pressure
- Heal or improves eczema
- Stop rheumatoid arthritis (moderate cases)
- Relieve premenstrual pain
- Slow progression of multiple sclerosis
- Improve hyperactive children
- Alleviate hangovers

Concentrated Formula Contains:

Evening Primrose Oil 500mg

Cis-Linoleic Acid (LA) 365mg

Gamma-Linolenic Acid (GLA) 45mg

Suggested Use: Take 3-6 softgels daily

3 softgels daily will last: 66 days

FLAX SEED OIL

The seeds and oil of the flax plant contain substances which promote good health. Flax seed oil is rich in alpha-linolenic acid (ALA), which belongs to a group of substances called omega-3 fatty acids.

Omega-3 is beneficial to the heart, helping to protect against heart disease and control high blood pressure.

Flax seed oil contains lignans, which may have antioxidant actions and protect against breast, colon, prostate, and skin cancer. Studies have shown flaxseed to slow down the division of tumor cells.

Omega-3s have been shown to counter the inflammatory response, which is helpful to those with inflammatory conditions such as lupus and gout.

Helps To:

- Regulate cholesterol and triglyceride levels in the blood
- Improve function of hyperactive children
- Increase metabolic rate, stamina and muscle fatigue recovery
- Reduce inflammation
- Alleviate acne

MULTIVITAMIN / MULTIMINERAL

Solutions4 Multivitamin/Multimineral is the perfect combination of essential vitamins and minerals that are necessary for health. This formula utilizes the process of chelation, which binds minerals with amino acids, making assimilation by the body much more efficient than comparable supplements.

The Importance of Chelation:

Multivitamin / Multimineral is an important and effective formula because of its chelation [key'lation]. This is the process by which mineral substances are changed into their digestible form. Common mineral supplements such as bone meal and dolomite are often not chelated and must first be acted upon in the digestive process to form chelates before they are of use to the body. The natural chelating process is not performed efficiently in many people, and because of this, many of the mineral supplements they take are of little use.

Features and Benefits:

- Boost energy
- Cleanse the blood
- Aid in the removal of free radicals
- Manage weight
- Improve skin tone
- Repair cells
- Fight disease
- Improve digestion
- Detoxify the body

SALMON OIL

Wild Alaskan salmon does not suffer from the faults that plague traditional fish oils. The salmon's cold-water habitat and relatively short lifespan dramatically reduce the exposure to common environmental toxins, resulting in a higher quality, and higher purity oil. A salmon's high dietary intake of protective carotenoids such as astaxanthin make their oil more resistant to spoilage and rancidity than other fish oils. Salmon are a renewable, self-sustaining resource. Other fish oils, which are commonly a blend of several species of fish, have a much less consistent level and blend of healthy omega acids, especially EPA and DHA. Each serving of salmon oil contains 180 mg of EPA and 220 mg of DHA, two of the most beneficial constituents of omega 3 fatty acid.

Helps To:

- Boost levels of HDL and lower the levels of triglycerides
- Aid in healthy aging
- Lower weight without dieting
- Increase bone and joint health
- Assist in cognitive function
- Increase the health of the eyes, nails and skin
- Promote healthy pregnancies and developing children
- Improve mental health
