INFRARED SAUNAS

To Help With Weight Loss

One goal at Club Reduce is to help you learn how to trigger your fat-burning hormones. The more toxins you can release from your body, the better your hormones One great tool to keep your body detoxified and cleansed is by having **INFRARED SAUNAS.**

An Infrared sauna can burn up to 600 calories in half an hour, and it creates as much sweat as a six mile run.

The sharp increase of blood and lymphatic vessels leads to intense physical "squeezing" of subcutaneous fat deposits and weight loss without load on the heart. This gives you effective leverage over fat burning hormones.

WHOLE BODY VIBRATION

FOR WEIGHT LOSS

Amazing New Technology To Speed Up Your Weight Loss!

-Accelerates Weight Loss
WBV stimulates all cells in the body to function at a higher rate, which in turn increases the metabolism causing more fuel to burn which helps to accelerate weight loss.

-Reduces Cellulite
WBV causes increased local circulation to targeted areas, in turn giving the visible cellulite area a "smoother" look.

-Increases Energy
WBV stimulates all cells in the body, increases blood flow and oxygen intake and stimulates metabolism to help flush out toxins.

-Increases Bone Density
There are two types of bone cells. Ostioblasts (bone maker) and ostioclast (bone shaper.) Bones loss is due to more ostioclast than ostioblast cells. WBV stimulates more weight bearing exercise and gravity stimu-lates ostioblast cells.

-Improves Muscle Strength
WBV improves muscle strength the same way as regular exercise does. Vibrations lengthen and shorten the fibers depending up-on the frequency.

-Enhances Wellness
WBV increases blood flow, lymph drainage, oxygenation of cells, the release of endorphins, and detoxification of the body.

-Enhances Detoxification
WBV works from the inside out. Waste products are expelled at a cellular, lymphatic and excretion level.

-Improves Circulation
WBV improves circulation through increased blood flow by stimulating the exercise heart rate.

-Improves Relaxation
WBV increases circulation, blood flow and oxygen intake. WBV also reduces cortisol (the stress hormone) and creates and releases endor-phins. It also detoxifies the system, enhancing relaxation.

-Reduces Varicose Veins
WBV causes increased lymph drainage, which lowers the pressure in varicose veins so the valves of the veins
can close off.

EXERCISE WITH OXYGEN THERAPHY

EWOT (Exercise with Oxygen Therapy) accelerates fat burning and increases metabolism!

EWOT can increase strength lines up to 20% and increase weight loss by an additional 20%. EWOT has been known to increase basic cellular life making the individual feel 20 years younger, eliminating shortness of breath all together refreshing the whole body with new life.

EWOT increases the amount of oxygen in the blood and plasma, and thus also in the tissues.

This increased level of tissue oxygen has several beneficial effects. It has been used successfully for a multitude of conditions, including: heart failure, cardiomegaly (enlarged heart), high blood pressure, cancer, wellness and antiaging, emphysema and
stress of all types (surgery, injury, immunizations, smoking, over exertion, infections, etc.).

It can also...

- Prevent age related diseases such as cancer, macular degeneration, cataracts, diabetes, chronic fatigue, fibromyalgia, 'non healing' wounds (and so much more!)
- Slow down (or Reverse!) the process of aging
- Increase the diameter of the blood vessels (capillaries) that provide oxygen and nutrients to tissues and cells

BODY WRAPS

For Inch Loss and Diminishing Cellulite

Unlike wraps you have heard of or read about, this specific wrap was developed by a bio chemist from the ULCA medical center.

This wrap process was formulated to encourage circulatory and lymphatic flow in patients. Research showed that because of this increased flow of both the lymphatic and circulatory systems, the patients experienced cleansing of the tis sues. This, in turn, caused healthy inch loss through internal cleansing.

Not only does the body benefit internally from this Body Wrap, but the external benefits of contouring and inch loss make this wrap ideal.

Club Reduce Body Wraps use herbal formulations which work externally to internally.

You will experience inch loss, diminishing of cellulite and body contouring. These results can be permanent and completely safe. This particular Body Wrap has
