HORMONE BALANCE KIT FOR WOMEN

Serotonin Support:

This supplement is designed to improve mood and reduce irritability by utilizing an exclusive blend of all-natural ingredients, including a vitamin/mineral complex and 5-HTP. Together, these ingredients provide a powerful foundation for optimal brain health and a better mood.

DHEA:

DHEA (dehydroepiandrosterone) is a natural anti-aging hormone precursor that can convert into estrogen, testosterone, cortisone, and progesterone by the body. By using this simple hormone in supplement form, you can help slow the natural aging process and avoid age-related diseases.

Hormone Balance:

This product offers natural hormone therapy in the form of potent plant extracts. These herbs help support the body's natural and balanced production of hormones. Rather than replacing these hormones artificially, this product simply provides the precursors you need to regulate healthy hormone function.

Thyroid/Adrenal:

This powerful product contains a blend of 10 synergistic herbs that work together to support the body's natural production of thyroid hormones. This supplement can help you overcome thyroid-related symptoms of weight gain, low energy, fatigue, or depression.

Wild Yam Cream:

Wild Yam Cream provides the body with safe and natural progesterone precursors needed for healthy hormone balance that restores the body to a state of optimal health.
